

Anupama Kumari Rai

32 years

BACKGROUND

Anupama's an intelligent young woman with an insatiable appetite for learning. She scored an outstanding 81% in her tenth standard board exams while also helping her mother with chores at home. Unfortunately, she had to put her studies on hold after she was attacked with acid right after her 10th grade examinations. But even the attack couldn't weaken her will. While getting treated for her burns, Anupama taught herself cooking and tailoring. She stitches beautiful blouses for her cousins and neighbours. She is also the caterer of choice for all family and neighbourhood gatherings. Her enterprising nature is an inspiration to all that know her and till date, Anupama has never been one to say no to a new challenge or opportunity. Her desire to learn and strive towards self-improvement is incredibly motivating to watch for those who invest in her growth.

EDUCATION

Passed her 10th standard with 81% from a government school in Bihar
